

Native Hawaiian Ecosystem Coloring Book

The link provided will allow you to download three different stories both in the English and Hawaiian Language. The material can be used in a variety of ways.....

1. Coloring as a stress reliever. Coloring is known to reduce stress and improve morale.
2. If you can't print out the book, you can read it. It is written both in English and Hawaiian. For the 'Olelo Hawai'i students, reading in Hawaiian is good practice on pronunciation and building vocabulary.
3. All books talk about specific ecosystems and their importance. This is a good way to review ecosystems, especially the Kai book. The information provided in the book is the same info provided from our field trip to Paepae o Heeia.

Please use the material for one or all of the activities listed from above Share your work in a variety of ways. Take a picture or video of you doing something with the coloring books and upload it via email or google classroom. If you can't upload..... Be sure to read the books, color them, and submit.

Email with any questions or concerns mpokipala@hurricanes.k12.hi.us
